ABOUT A SUNDAY IN AUGUST

We let the grapes make the wine.

Our fruit is organically grown in BC, Canada's Okanagan Valley and on Vancouver Island's Saanich Peninsula. We farm many of the vineyards, including our own on Salt Spring Island, and partner with farmers who share our love and care for the planet and our health.

In the cellar, we are stewards of the natural, wild fermentation process. We do not intervene, fine, filter or add anything except organic grapes and trace sulphur at up to 30 parts-per-million.

We make wine that we want to drink. Every bottle is alive. They're light, bright, beautiful and balanced, full of fruit and flavour.

—Mike Shindler & Sam Milbrath

a Sunday in August

HELLO, VINTAGE 2022

Spring 2022 in BC was wet and cool—great for growing, but with some challenges. Summer was long and dry—ideal for ripening fruit until a late harvest in October. This was a bumper-crop year yielding beautiful, organically grown fruit with well-balanced ripeness and acidity.

Our 2022 vintage is incredible. Our best year yet!

- Reds: So juicy and fruity, some light and bright, others brooding with balanced tannins.
- Whites: Light, bright, creamy, acidic, fruity, and floral—perfect summer glou glou.
- Rosés: Juicy, pretty, and celebratory—just as they should be.

We made our cult classics and some new wines, including a Carbonic Orange floral spice flavourbomb and an Island Vibes red that's raspberry crushable.

Natural wine feeling fine!

2022

CARBONIC ORANGE

Fresh, tropical fruity, and flirty, this Seville orange, ginger spicy, white tea, Jasmine floral full-carbonic orange wine is a summertime glou glou splash in a glass.
